

Name _____

Date _____

Car A and Car B

Car A and Car B were moving at constant speed, as shown in the graphs.

- (1) At the end of the first minute, how many miles had each car moved?
- (2) Which car was moving faster?
- (3) For the faster car, write a formula for the number of miles moved in n minutes.
- (4) How many miles does the faster car move in 10 minutes?
